

## SPLENDID CANADIAN CROPS

Wheat, Oats and Barley Universally Good Throughout Manitoba, Saskatchewan and Alberta.

The reports that come to hand from the wheat fields of the western Canadian provinces show remarkably good yields in all parts. Yields are recorded of wheat going 35 and 40 bushels in many places, and oats from 60 to 100 bushels per acre. Barley and flax are splendid. The thousands of Americans throughout the United States who have friends in Manitoba, Saskatchewan or Alberta will be pleased to learn of the great success that has followed their efforts. Many of these have not confined themselves to the growing of grain, but have also gone into the cattle industry. On the luxurious grasses that are so abundant there, in almost all districts, make this industry safe and profitable. The land sales reported by the railway companies and by the different land companies show the great increase that will likely take place during the next year in farming operations. What has been said time and time again may now be well repeated, that there is no place on the American continent where the same opportunities are afforded the man looking for a home, for the young man starting out in life, the man with a growing up family, who desires wider scope for his ambition. The Canadian government agents located at different points in the states will be glad to advise the reader of the conditions, and relate to him instances of the great success that has followed farming in Western Canada.

Overheard in Venice.  
"Isn't it romantic, John, dear," said she as they sat in the little Venetian garden, "to sit here and listen to these Italian troubadours singing their ballads bathed in the moonlight?"  
"Yes, dear," replied John, with a deep-drawn sigh. "But I sometimes wish they'd bathe in something besides moonlight, don't you. It might be more romantic, but it would be a darn sight more hygienic."—Harper's Weekly.

Two of a Kind.  
"I find that my husband has been having the office boy call me up every day and mumble terms of endearment. That's a nice way to fool his wife. He's been going to the ball game."  
"How is it that you didn't catch on to the voice?"  
"Well, I'm busy at bridge every day, and I've been having the cook answer the telephone."

The Proof.  
Mrs. J. G. Phelps-Stokes, in an address in Pittsburgh, was urging her women hearers to learn to be good cooks.  
"If," she said quaintly, "you would convince your husband that you are a better actress than Duse and a better dancer than Pavlova, prove to him that you are a better cook than Escodier."

A Superior Person.  
H. Elliott, the secretary of the American Automobile association, was talking about a somewhat supercilious and conceited millionaire.  
"He's a very superior person," Mr. Elliott said, smiling. "He's the sort of person who would be sure to go to a horse show in a motor car and to an automobile show in a monoplane."

A Perilous Duty.  
"My position," remarked the eminent physician, "is one requiring the greatest tact and diplomacy."  
"What is the trouble?"  
"I feel conscientiously obliged to tell several of my most wealthy and influential patients that they overeat."

## MISSOURI NEWS

INSPECTS NEW CAPITOL SITE.

Will Consult Experts Before Final Action is Taken.

Jefferson City.—Three of the state capital commissioners spent the day examining the buildings on the block and one-half it is proposed the state buy and add to the capitol park.

With the aid of real estate men and others who have information on the value of property situated in that part of the city, they examined each building on the site.

From the examinations made the commissioners said they were satisfied that many of the options represented modest valuations. Several, they learned, are placed at a lower figure than the property would probably sell for. Some are above the actual market price. More experts will be consulted on the various valuations before final steps are taken.

The means of acquiring the site will be decided first and before the outline of the new capitol is agreed upon. It will be necessary for the commissioners to determine if the old capitol is to be torn away. If it is to be demolished, the appropriation of \$72,000 for its repair need not be used, save to provide quarters for the next session of the legislature and better quarters for many of the state officers.

ROAD PLEDGES CARRIED OUT.

Central Missouri Route Will Be Dedicated October 20th.

Jefferson City.—The central route has made good its pledges to construct a road to connect St. Louis with Kansas City, according to the report of Curtis W. Hill, state highway engineer to the state board of agriculture. Accordingly, the dedication of that route as the official cross-state highway will take place October 20 to 21, Gov. Hadley says.

With the exception of a gap about twenty-five miles in length, arrangements have been made to construct a permanent road through every county between St. Louis and Kansas City. This gap, which is in Howard county, will be closed up before the date of dedication. A series of special and benefit assessment districts have been organized along that route from Jackson county to St. Charles county, with the exception of the gap referred to. Bonds have been voted in the amount of \$110,000 at Columbia and \$105,000 at Fulton and other towns have organized districts. About \$50,000 has been subscribed, and the money is available for the purpose of constructing necessary culverts and doing the temporary grading.

Fulton Has a Shake-up.

Fulton.—The city council devoted part of its recent meeting to receiving resignations, the following being tendered and accepted: Grant Dunham, for thirteen years first chief; John R. Baker, city attorney; and Judge David H. Harris, member of the library board. Henry Lorenz, first assistant chief, will be head of the fire department until a new chief is appointed. N. T. Cave was appointed city attorney, and W. F. Henderson succeeds Judge Harris.

Dead Town Gets Fresh Start.

Fulton.—Millersburg, a village in the western part of Callaway county, which was organized fifty years ago, but ceased to follow along municipal lines a few days after its birth, when a crowd of students from the Missouri State University at Columbia drove the city marshal from his post of duty, was reincorporated by the county court here and immediately formed into a new municipality.

150 Hounds to Chase Foxes.

Monroe City.—The North Missouri Fox Hunters' association is holding its seventh annual meet on Salt river, ten miles southeast of this city, this week. Wolves and foxes are there in large numbers and often several hundred men, women and children join in the chase. One hundred and fifty hounds from several states are on hand.

Gift to Stephens College.

Columbia.—The will of R. E. Sappington, a Boone county farmer, provided, gives the residue of his estate, after the disposal of \$3,000 in legacies, to Stephens Female college of Columbia. The extent of the bequest is not known, as the estate has not been appraised, but it is likely to be about \$25,000.

Jewell Is Found Guilty of Murder.

Chillicothe.—The jury in the case of John Jewell, who was tried for the murder of Charles Hughes, reported, after being out twelve hours. Jewell was found guilty and his punishment fixed at ten years in the penitentiary.

St. Louis Wins Photo Trophy.

Kansas City.—At the meeting of the Missouri photographers' convention the Gerhard sisters of St. Louis won the Latons trophy, the first award made. Visiting photographers were entertained at Electric park.

Exhibits Ninety-eight Farm Products.

Holden.—At a farm product show here Mrs. J. H. Shelton had an exhibit of ninety-eight different products raised on the farm of her husband. The list included staple products of the farm and vegetables and fruits.

## MUNYON PREACHES HOPE PHILOSOPHY

New Association Gaining Many Members.

FAITH'S CURATIVE POWER

NOTED HEALTH EXPERT GIVES REASON FOR BIG SUCCESS IN MEDICINE

Tremendous success has attended the organization of the new Munyon "Hope Club." Professor Munyon claims that he has secured more converts than he ever anticipated, and says that his "Hope Club" is growing in leaps and bounds. It is said that the total membership of the association throughout the United States is now well over the half million mark.

In a statement for publication Prof. Munyon said:

"I want to talk to every sick, ailing and despondent person in this city. I want to preach my new creed to them. I want to tell them about my new philosophy of health, which is the fruit of a lifetime of study and experience in dealing with sick folk."

"I think that probably a million persons at least in the United States have declared themselves cured by my medicines, and I know that these people have had the best medical science had to offer. I have always contended that if there is any virtue in medicine my followers should have the best, but I never believed that more than one-half of those who have been lifted to health from the bondage of chronic illness, through taking my medicines, have been really cured by the knowledge that they had the utmost in medical lore at their command, and the Hope this inspired."

"I am not in any sense a practicing physician. I employ at my laboratories in Philadelphia a large staff of expert physicians and chemists, and I have many other physicians in various cities of the United States detailed to give free advice to the sick and afflicted. My headquarters are at Munyon's Laboratories, 534 and Jefferson Sts., Philadelphia, and I have there a staff of duly registered physicians and consulting experts, and to all who desire it I offer the best of medical advice absolutely free of charge."

While today, addressing Prof. J. M. Munyon personally and your letter will have a special care.

An Exact Situation.  
"Doctor," said the nervous man. "Is there any way of teaching a person to talk in his sleep?"

"I never heard of any," replied the physician. "How could such an accomplishment be of benefit?"  
"It is either that or insomnia for me. My wife is one of the best suffragette speakers before the public. She always rehearses her orations at home, and I've got to say 'hear, hear' or 'that's the stuff' at least once every ten minutes."—Washington Star.

RASH ALL OVER BABY'S BODY

Itched So He Could Not Sleep

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days a nasty rash came out all over his body. We took him to a doctor who gave us medicine for him. The trouble started in the form of a rash and was all over baby's body, head and face, at different times. It irritated, and he would scratch it with all his might. The consequence was it developed into sores, and we were afraid it would leave nasty scars on his face."

"When we reached England we took baby to another doctor, who said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to itch and burn at night so bad that the child could not sleep. He was completely covered with it at different times. It was at this time that my mother advised us to try Cuticura Soap and Ointment. After using Cuticura Soap and Cuticura Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment. We have no further trouble with baby's skin. Nothing stopped the itching, and allowed baby to sleep but Cuticura Soap and Cuticura Ointment." (Signed) Mrs. Margaret Gunn, 29 Burrell St., Roxbury, Mass., March 12, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to Cuticura, Dept. 14 K, Boston.

The Climatic Autocrat.

"What I should like," said the self-indulgent person, "would be to have wealth enough to permit me to live in a cool place in summer, and regulate the temperature according to my own fancy in winter."

"You don't need wealth. What you want is the job of janitor."

Be sure your sorrow is not giving you its best, unless it makes you a more thoughtful person than you have ever been before.—Phillips Brooks.

## TOO MUCH FOR HACK DRIVER

High-Sounding Name Made Old Man Think There Was Something Mysterious in the Wind.

After a long, hot, and dusty journey by train the New York commercial traveler arrived in Richmond, brushed enough dust off his face to make sure that the right man was getting off, and hailed one of the little sea-going hacks common in the Old Dominion city. It was driven by an aged negro. "Drive me to a haberdashery," said the traveling man surveyed his soiled raiment with disfavor. "Yessuh," said the negro. "Giddup." The old horse started off at a little stiff-legged jog trot. The driver seemed to be thinking deeply. By and by he pulled the horse to a stop, and leaned backward to his fare. "Scuse me, sah," said he, "but wey do you all want to go?" "Drive me to a haberdashery," said the traveling man. "Oh, yessuh," said the negro. "To be sure. Giddup." The hack rattled on for a little way, and then the negro stopped, got off the box and poked his head in over the little door. "Melbe Ah didn't get dat name jus' right," said he. "Would you all unite repeatin' it, suh?" The traveling man said for the third time that he wanted to go to a haberdashery. The old driver shook his gray wool and looked grieved. "Ah'm an ole man," said he. "Yoush kin trust me. Weah is it you really want to go?"

HOW NASTY.

Not in Circulation There.

An error of a new clerk in the mailing department of an eastern publisher was responsible, the other day, for the mailing of a prospectus to a world-famous statesman, who had been dead for some years. The letter was returned a few days later with the following indorsement: "In Heaven, 1911. Gentlemen: As your publications are not permitted to circulate here, I believe it would be useless for me to subscribe for them. Yours respectfully," and here followed the name of the famous statesman.

A Metaphor Resented.

"Did I understand you to say, sir," said Colonel Stillwell, "that you regarded that orator's remarks as moonshine?"

"That's what I said," replied the critical person.

Well, sir, I do not wish to seem capricious, but when it comes to comparing that line of talk with a mountain product for whose vigorous qualities I have a large degree of respect, I must say your efforts to be complimentary, sir, go entirely too far."

## WANTED TO BE AN AVIATOR

Missouri Girl Evidently Very Much in Earnest in Her Desire to Navigate the Air.

Mr. Claude Grahame-White, the famous English aviator, is constantly besought by young women to teach them to become aviators. Many make application by letter. One of these letters reached him the other day from a point in Missouri. Cleared of its errors in grammar, spelling and capitalization, it read something like this:

"Oh, Mr. Grahame-White, teach me to be a 'planer.' I saw one of them at Kansas City, and I think it is just heavenly. I would like to run a Wright monoplane or a Blériot biplane, but if you have a better flyer I would try that. I think I would look cute running a baby flyer. Pa says he wouldn't mind my having a baby one. Couldn't you bring one out here for a week or so and show me how to run it? I assure you a good time?"

Mr. Grahame-White was compelled to decline the young woman's kind invitation.

Circumstantial Evidence.

A Scotchman and his wife were visiting in a wild, beautiful part of the country. While driving one day with their host, the two men sitting together in the front seat while the lady sat behind, they crossed a high bridge which spanned a roaring torrent. An unusually loud splash caught the gentleman's attention for a moment, but nothing was said. After several miles the gentleman turned to address a remark to his wife, but her seat was empty.

"Aye," he remarked to his host, "that will be you splash we heard."—Housekeeper.
